

Welcome to Newton multipurpose lifters - now with a fully powered Clamp

If you need to handle reels, bins, dies, drums, crates - or just about any thing else, the Newton range will help you. With up to 150kg of lifting power housed in a compact unit just 500mm wide, these machines are really easy to use. Power comes from a sealed battery and provides a smooth lift both up and down.

The fully powered clamp is the latest piece of wizardry to the range and offers powered squeeze, lift and highly controlled rotation.

Clamping Sequence:

Available with pads or rollers
