

Welcome to Newton multipurpose lifters - now with Platform Attachment

If you need to handle reels, bins, dies, drums, crates - or just about any thing else, the Newton range will help you. With up to 150kg of lifting power housed in a compact unit just 500mm wide, these machines are really easy to use. Power comes from a sealed battery and provides a smooth lift both up and down.

The Platform Attachment is perfect for lifting objects with flat surfaces.
